HOLLOWAY'S PILLS

—AND—

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot.

Present, Nothing will be more appreciated THAN ONE OF these MACHINES.

America, England and France, now unite in this grand Proclamation:

Good news! good news the cable brings,
O'er all the wires it flies,
Wheeler & Wilson's sewing machine
Brings back the golden prize.

Our "Uncle Sam" first struck the note,
"John Bull" then caught the sound;
Now comes from France the echo back,
Wheeler & Wilson's crowned.

And now, no more the people doubt,
So long its stood the test—
The thing is fairly noised about
And they will buy the best.

☞ We can now supply those who wish to purchase 'STODDARD'S PATENT TUCK-MARKER,' one of the most useful attachments to the Machine yet invented; which, while sewing one tuck, makes the line of marks for the next.

FALLEN.

I met thee in thy morn of life,
A happy, guileless thing;
And all the loveliness that decks
The rose, did 'round thee cling;
And now I meet thee in thy shame,
Without a friend—without a name.

There's beauty still upon thy brow,
The same sweet look is there—
That in the morn of life I saw—
Save a few lines of care—
But sorrow's wave too soon will chase
The light of beauty from thy face.

Thy beauty gone, thou soon wilt go,
And none will watch thy bed,
None sigh to see thee pass away,
Nor grieve for thee when dead.
Thy grave—alas! will soon be green,
And few will know that thou hast been.

A TALK WITH BUSINESS MEN.—The following from the San Jose *Mercury* has a local significance, and we ask the merchants and business men of this town to give it a perusal:

"Business men of San Jose, you will not accuse us of merely selfish motives, when we urge you to make your business known to customers through the local papers. It is for your interest to advertise, as well as ours. It is true that some of you have regular customers, who would patronize you whether you advertised or not; but there are new comers who need to be informed, and if you do not let them know what inducements you can offer them, they will go elsewhere. For advertising there is no better medium than a widely circulated local journal. The most successful business men everwhere are those who advertise the most judiciously, the most liberally and constantly. Very few men fail in business in consequence of over advertising; in fact we never knew nor heard of such a case, although the thing is possible, perhaps; but we have known very many to fail through lack of advertising. People generally do not like to patronize a merchant who does not advertise; they think, and justly, too, that a dealer who is too penurious to advertise, is too mean to sell goods at a reasonable price. They want to buy at the cheapest and best houses; and they are not apt to think that place cheap whose proprietor is too illiberal to pay a few dollars to his home newspaper to let the public know whether he keeps a store on the square or not. Let the people know what sort of business you do, and how you do it; what goods you have to sell and the prices you will sell for, and we warrant every dollar judiciously spent in this way, will come back to you ten fold.

Beside the advantage you would directly gain by advertising, you would indirectly and ultimately gain still more. A stranger judges a town very much by its newspapers. They look at the hotels, stores, churches and schools, but the standard of a town is its public journals. The appearance of thrift in the newspaper is a sure indication of enterprise on the part of the people, and *vice versa*. Many a man has been induced to settle in Santa Clara Valley through the influence of the *Mercury*. We do not take all the newspaper credit to ourselves, but we are conscious of doing our full duty, and give the public just as good a paper as the public support enable us to give."

THE Corinne *Reporter* announces the death of Apostle Benson, of the Mormon church, thusly:

We are informed that Apostle Ezra T. Benson, who dropped so suddenly in Ogden last Friday, had only *thirteen* wives!—that's all—just a baker's dozen. We could not learn the number of children, for they have not been counted for several years. Here is a subject worthy the solemn contemplation of Mormon extenuators everywhere. Thirteen wailing widows and a *slaythter* of sorry children lamenting the inscrutable ways of Providence. What will become of them? Well, the Mormons have a way of getting along with that, for their social life is something on the barn-yard style of matrimony. Like the poultry on the farm, when the old chanticleer dies all the other roosters crow the louder, and business goes on. So with Mormonism; when a polygamist dies, the other chanticleers of this moral barnyard absorb his wives by marrying them into their own households, (absorb is a neat word in the place). Then, too, a Mormon's glory, both here and in the hereafter, shines forth brilliantly in proportion to the number of his concubines and children. The Apostle Benson, then, will for his thirteen wives and scores of children go high up into tall grass pastures, and shine with a dazzling glory, while his disconsolate relicts and slaythter of children will be distributed about like country school marms. But again comes in the barnyard simile. Mormons believe in industry, and make every old hen scratch dirt for herself. Verily, great is King Brigham. *Vive la* Mormon barnyard matrimony.

COMPULSORY EDUCATION.—The New York *Tribune* estimates that there are at least one hundred and fifty thousand children in that city growing up without any sort of education: "Their rate of increase was never so large; their degradation never so revolting; their depravity never so inveterate and defiant; the power of their accessories in evil never so formidable; and their resistance to all efforts for their amelioration and reformation was never more obstinate. In the face of all that the Church and the State, personal effort and organized benevolence, the highest order of intellect and the most enlightened experience, have done for them, they are now more unreclaimed and incorrigible than ever. They have not been either crowded nor cajoled into reformation. In their own sphere and range they have the field and the day. It is from this noxious nursery that all the enginery of vice is supplied and every ministry of evil recruits its rapidly exhaustive forces." The writer rather hints at, than directly urges, compulsory education as the proper, if not the only, means for breaking up this "noxious nursery."

A SAILOR'S wife at Portpatrick had just received intelligence that her husband had perished at sea. She was visited by a neighbor who sympathized with her in her loss, and expressed a fear that she would be poorly off. "Deed I will," said the widow; "but he did all he could for me—he saved me the expense of his buryin."

Western Customs.

HOW A NEWSPAPER MAN WAS CORRALLED BY A LANDLORD'S DAUGHTER.

[Correspondence of the Louisville Express.]

I haven't dated this letter, because I don't know where I am. I am about nine miles from Julesburg, at a little settlement on the South Platte River. At daylight to-morrow I am to catch some of the finest salmon you ever saw. They will not bite at any other time of day. I suppose they learned this disagreeable habit of early breakfasting from the "Bull Whackers" who navigate these plains. I am stopping at a little hotel about 30 by 10 feet. The scarcest thing in this country is lumber, settlers having to pay ever so many dollars a foot for all they use, besides what they brought in their valises. The landlord is from Pennsylvania and seems to be doing a thriving business. By dint of hard talking and liberal promises, I got a room to myself. It is just large enough for the bed and candle box set on a chair upon which I am writing this letter. It is in one end of the building, and separated from the next room by a bed quilt, which you must crawl under to come in or go out. But it is my room, and after the jolting I have had upon the Indian pony, I expect to have a good night's—

Was ever a poor pilgrim in such a fix? Just as I had written "night's" above, and had sleep on the point of my pen, I heard a knocking on the floor outside the bed quilt. "Crawl under," said I.

Enter the landlord's daughter, a buxom young lady about 17 years of age, I should judge. She opened her rosy lips and spake as follows:

"Mister, don't take off your clothes to-night when you go to bed."

"Why?"

"Because I am going to sleep with you."

"Well, if you have no better reason than that—"

"Hush! Shet up! You told par that you would not sleep with a man."

"I had rather sleep with a wet dog."

"Well, I have given up my bed to a sick man. I have been hard at work all day, and have to work hard all day to-morrow, and can't afford to set up all night. That bed is wide enough for us both. I shall stay on the back side, and if you don't stay on your side, you'd better, that's all."

As she said this she raised from her dress pocket an infernal jack-knife, such as farmers use in trimming fruit trees, and then let it fall back with a chug. I comprehended the situation in half a moment, and unto this maiden I quoth as follows:

"Miss young lady, your intentions may, or may not, be honorable. I am traveling entirely by myself. My natutal protectors are miles away beyond the boundless prairie, ignorant of the perils which may beset their idol. Thus far I have not been insulted by your sex. I am a man of a few words, but they are always emphatic. I will give you up a part of that bed, and that's all I will do. If you attempt, during the silent watches of the night, anything contrary to this firm determination, by St. Joseph, my patron saint, I will shoot you right through the midriff."

As I concluded, I laid a Slocum pistol upon the candle-box. A low chuckle outside the bed-quilt gave evidence that paterfamilias had heard and approved the arrangement.

My antagonist laughed, and saying, "Mister, I reckon we understand each other," bounced over to the backside of the bed. There she is now, pretending to be asleep. I can't finish this letter. I can't do anything. Talk about the trials of the earlier saints—about being broiled over live coals—about being flayed alive—about being boiled in oil. What was all that to all this?

Care of the Watch.

1. Do not make a toy of it for yourself or the children. Never open it except for necessary purposes.

2. It should be regulated to about mean tempearature, and always kept as near the temperature as possible.

3. It should not be allowed to stop. Better that it be kept running all the time.

4. Keep it in as uniform position as possible. If in the pocket, better that the pendant ring be upright.

5. Out of the pocket, if it hang on the wall, let it be on some soft surface. Never allow it to lie on bare marble or wood or any other hard surface, let it be with face up, and pendant ring turned under so as to keep the upper part most elevated.

6. Let your key fit exactly, and be kept perfectly clean. By the former, you may save breaking chains, mainsprings, ratchets, clicks, wheels, etc.; by the latter, prevent introduction of much dust.

7. Wind, if possible, at the same hour each day.

8. While winding, hold your watch steadily in your left hand. Turn over your key, and that firmly, evenly, avoiding all quick motions or jerks.

9. Set your watch with a key; never turn by any other way. You may turn the hands either way without danger if they do not move very hard.

10. On regulating a watch, should it be going too fast, move the regulator a trifle toward the "slow," and if going slow, do the reverse; you cannot move the regulator too gently at a time, and the only inconvenience that can arise is, that you may have to perform that duty more than once.

11. Take notice that your watch, even if a good one, will sometimes be guilty of "irregularities" in consequence of change of temperature, from the effects of which none but a chronometer is exempt; also, from the jerks and jars of travel.

12. If you find any difficulty which you do not understand, go at once to a good watchmaker.—[*Watch Repairer's Guide.*

SEVERAL Radical papers are quarreling over the question as to who is the godfather of the Republican party. It makes but little difference who is god-father when the party is going to the devil faster than ever Putnam galloped down the rocks, with no return ticket.

HEBER C. KIMBALL, late right bower of Mormondom, left thirty sons and eleven daughters. The number of widows who mingled their tears over the defunct Heber is not stated.

The Chinese Problem.

Almarin B. Paul, well known to old Californians, makes some vigorous remarks on the Chinese question, well worthy the attention of every man who intends to vote against the Fifteenth Amendment, the only remedy for the threatened Mongolian invasion. From his recent contribution to the *Mining and Scientific Press* we extract as follows:

"One of the agencies that are going to give it an impetus, is the incoming of the Chinese, and it is of this I want to speak. At this state of affairs, when our country is likely to be overrun by them, it calls for thought and action for security against them by the association of capital and white labor to use them. And here let me say, your miners must stare facts square in the face, and arouse all their energies, not by brutish and unconstitutional acts, but by putting yourselves in a way to use them. They are coming by thousands—yea, tens of thousands. There is no staying it. State laws cannot be made strong enough to do it, and national ones will not be enacted to prevent it; all organizations combined cannot stay it; nature's laws are inevitable, for it seemingly is manifest destiny. I accept it as such. I have fought it; for I see an evil in it, which only the lifting of ourselves square up in our boots, and declaring that we will turn an impending evil into a universal good, by resolving ourselves masters and they our servants, can avert. Every miner, if he has brains, can use them to a profit, in some part of the vast mineral domain. If he has not this requisite, he must abide the wave that is to carry him on or under. He must use them, or counteract this cheap labor by co-operation; for, without this action by all, the rich will become richer, and the poor poorer. The rich will use them to build up collossal fortunes and power, and for the poor to fight them without avail is ruinous to them.

If this great Asiatic wave can be stayed, then I say, Amen; but can you do it? The world seemingly has turned upon its axis crosswise. The magnetic currents have changed. With the Caucasian it has been westward ho! With the Asiatic it is now eastward. The Orient and the Occident are to mingle. New York alone wants 100,000. The South asks for 50,000 at once. From the fact that a Commissioner from Arkansas has already been despatched to China for thousands, I would not be surprised to hear any day, that every batteau in the harbor of San Francisco that can brave the billows of the ocean, will be chartered for China to fill the demand.

I talk plain—not that I want it, but that I see it in the future; and my interests in behalf of those who labor call for candid declarations and timely warning, that you all may understand it, wake up to it, husband your efforts and prepare to meet it."

STILL "SPOONING." BEN. BUTLER.—Ben. Butler at a private house in Boston, at tea, was recently asked quite innocently by the landlady, his host, who had handed him a cup of molten China: "General, have you a spoon?" To which, a guilty conscience being his accuser, Butler frantically enjoined: "No, mam; I havn't any of your spoons; and if you doubt me, I'm ready to be searched!" A similar scene happened in Butler's own house, at his big Washington party, last Winter. Ben. Butler bore off Hon. Mr. Eldridge, of Wisconsin, and some other Democrats, Congresmen and correspondents, to the supper table, called for and got terrapin for all, but without the needful conveyancers of it to the mouth, whereupon he scared a darkey waiter white as the plate he was washing by hallooing, "Spoons, you scoundrel; arn't there enough in my house to serve my guests with?" This was too much even for the composure of his conservative guests. They took up the cry, and "spoons" was the shout for two minutes. It was some time before the *hiatus* could be filled by an original remark about the weather, and there was more laughter than terrapin bolted on that particular occasion.

AFFECTING SCENE.—The annexed we clip from the San Jose *Mercury* of Saturday:

An affecting incident occurred in the County Court yesterday. After the sentence of Mateo Andriade, a woman came into Court and dropped upon her knees in front of the Judge, addressing him in Spanish, sobbing and moaning, said she; "Is there no one that will help a poor lone woman. That prisoner is my husband. Oh! for God's sake, Judge, spare him. Do not take him from me." The Judge said nothing. The Sheriff removed the woman. Three years was a hard sentence, but we understand that it was merited, the prisoner having perjured himself when giving his own testimony from the witness stand.

THE Democratic party has emphatically been a people's party—a working man's party. Its principles, in every instance, have been based upon the interests of the working classes. It has ever opposed monopoly, extortion and oppression—the foundation on which capital rests. The issue, then, is between working men and nabobs. Let the former stand together, work together, and, if fate decree—fall together. The Democracy of this State, and of every county in the State, should be a unit. The struggle is one for principle and not for men. In a united Democracy lays the only safeguard against the loathsome oppression with which capital through radicalism, threatens the people.

THE Placer *Herald* sums up as follows:

The *Union*, *Record*, *Bee*, *Bulletin*, *Times* and *Alta*, Koopmanchopp's Mongrel organs, all give it up and are all taking passage for the head waters of Salt River—a foul freight for the old hulk this time. They may perfume themselves in the old *hulk's bilge water* and mourn over the fate of their Ethiopian and Mongolian man and brother, but the people will rejoice at their absence, and glory in a good government for California as the fruits of this victory. This is last the of the Mongrel organization in California, but Democracy never *dies*.

NOMINATED.—Lewis Dent, brother-in-law of the President, has been nominated by the Republicans for Governor of Mississippi.

YOLO COUNTY DEMOCRAT.

SATURDAY, : : SEPTEMBER 18, 1869.

Democratic Nominations.

For Justices of the Supreme Court:

WILLIAM T. WALLACE,
OF SAN FRANCISCO.

JOSEPH B. CROCKETT,
OF ALAMEDA.

For Judge of the Sixth Judicial District:

LEWIS RAMAGE,
OF SACRAMENTO.

Cache Creek Township.

For Justices of the Peace:
ELIAS PETERSON.....of Woodland.
A. J. HALL.....of Cacheville.

GET READY.—The defeat of the Radicals on the 1st of September did not fatigue the Democracy much, and if it had there has been plenty of time since to have taken a good rest. Another very important election is to take place on the 20th of next month, and we advise Democrats to remember it; to begin to stir themselves. It is possible to increase the majority in Yolo county, and being possible it certainly should be done. We have no fears regarding the result, but it is desirable to show those Radicals that the Democracy meant it at the last election and still mean it only more so. See that you are enrolled, and if you have removed to a different precinct have your name transferred. Get ready yourselves and see that your friends are prepared, and let us add at least fifty to our majority, as shown by the last election. It can be done, it should be done, it must and will be if an earnest effort is made.

BALLOU'S MONTHLY MAGAZINE.—This old favorite grows better each month, the October number being more interesting than any that have preceded it. It contains one hundred pages of varied and interesting reading matter, and is good company for the evenings and rainy days. Subscription price per year, $1 50, currency, or fifteen cents a number. Published by Elliott, Thomas & Talbot, 63 Congress street, Boston.

THE RETRENCHMENT COMMITTEE. — The *Spirit of the Times* says:

"This Committee, we understand, carried matters here with a high hand. Attended by the secret informer of the service, Dr. John T. McLean, they invaded the office of the Collector of the Port, and even refused him admittance when he made application at his door. These "nosing" and "smelling" Committees are a disgrace to the Government, and an office of spy, like that held by Dr. McLean, is a still greater disgrace."

WILLING.—The *Union*, *Bulletin*, *Appeal*, and other Radical papers, are satisfied to take half the Democratic ticket at the October election. They may be willing to take all of it before the 20th of next month. They will be obliged to do so immediately thereafter, and it would be so much prettier to do it voluntarily.

BIG BEET.—The San Jose *Mercury* is responsible for the story that J. H. Flickinberger, of Santa Clara county, raised 200 tons of beets last year which averaged twenty-five beets to the ton. There were many of them that exceeded one hundred pounds to the beet.

IT is considered certain that Gov. Senter will be elected U. S. Senator from Tennessee, to succeed Fowler; Maynard, Bailie Peyton and Andrew Johnson to the contrary notwithstanding.

BOAT RACE.—The barge of the U. S. Frigate Sabine, won the first prize, two hundred francs and a silver plate at Cherbourg, France, on the Empress' fete day. There were twelve boats contending.

QUITE A DIFFERENCE. — Fare at a first class Hotel at Baden Baden, the most popular summer resort in Europe, is $1 20 per day. For the same accommodations at Saratoga, the charge would be at least $20.

ONE hundred and twenty-one thousand dollars has been subscribed for the relief of the families of the unfortunate men who lost their lives at the coal mine in Scranton, Pennsylvania.

TOTAL RECEIPTS.—The total receipts of the State Fair, exclusive of rent of track, State aid, etc., are $22,330—a sum greater than the income from all sources last year.

EXPIRES.—The Sacramento *Union*, *Spirit of the Times*, and other papers say that "the Game Law" expired on the 15th instant. Guess not; we think it still lives.

REPORTED CHANGE.—It is said that D. W. Gelwicks, State Printer, and late proprietor of the Stockton *Gazette*, is going to Sacramento to run the *Reporter*.

GOV. HOFFMAN has transmitted to the State Department, legal notice of the ratification of the Fifteenth Amendment by the Legislature of New York.

GOVERNOR HAIGHT and family started East on Monday for a visit. During his absence Lieut. Gov. Holden will be acting Governor.

BIBLE IN SCHOOLS.—The Board of Education of Cincinnati have declared in favor of the Bible in the Public Schools of that city.

SHOCKS of an earthquake were felt at Sacramento, Marysville and other places in the interior of the State on Monday.

FISH STORY.—A Victoria paper tells of a mackerel caught near that place which weighs thirty-four pounds.

The State Fair.

The State Fair is over and is said to have been a "financial success;" that is, more money has been received and less expended than ever before. That is well, and we congratulate the Board of Trustees. The number of visitors was greater than ever before, and we congratulate the hotel-keepers, saloon-keepers, hack-drivers, boot-blacks and resident and visiting "sports." The exhibition of blooded horses was excellent—better than can be or has been shown at the Fairs of any other State—and for this the people of the whole State are to be congratulated. There was few good Cattle, Hogs, and Sheep, and for this we blame the Board of Trustees. A cash premium for blooded horses is not necessary; their owners will bring them to the Fair any how, and do not value the thirty or fifty dollars received; they only desire the endorsement of competent judges of the superiority of the stock which they exhibit. With neat cattle, hogs, and sheep, it is somewhat different; a premium from the Society is not nearly so good an advertisement for them as it is for the horse man, and the trouble is much greater in bringing them to the Fair, and the expense equal in most cases and in some greater. The premiums on that kind of stock should be increased. But there are really no inducements offered the farmer, the Horticulturist, or the Pomologist—representatives of the most important interests of the State; they bring the product of their farms, gardens and orchards to the Fair without prospect of present or prospective gain. Many of the articles brought are perishable and the paltry amounts of premiums awarded would not pay half the expense of one night's lodging in Sacramento during Fair week. Is it a wonder that this part of the exhibition should be a failure? Is it a wonder that parties visiting the Fair should go away disappointed with the exhibition, when its poverty is contemplated? Is it a wonder that visitors, after submitting to the extortions of hotel-keepers and hack-drivers, seeing nothing to compensate them for their time and vexation, should go home and pronounce the Fair a humbug, a swindle, a "bilk?" We advise the management to make a change next year; let the large premiums be given to the exhibitors of products of the farm, orchard and garden; let them be increased from a portion of the profits of the races; give "special premiums" and "honorable mention" to the exhibitors of blood horses, and different fabrics and inventions brought to the Fair as a means of advertising, and we will warrant an exhibition worthy of the State and honorable to the Society. Will they try it? Probably not; but we assure them that unless great and radical changes are made in the arrangement of their premium list, the Fair of next year will be a failure, "financially" as well as in other respects.

LAYING THE CORNER STONE.—The laying of the Corner Stone of the Odd Fellows' Temple, in Sacramento, on Wednesday, was accompanied with imposing ceremonies. There was a grand procession, the most noticeable feature of which was the participation of the members of the Grand Lodge of the United States. After prayer by the Grand Chaplain, J. W. Venable, of Kentucky, Grand Sire Farnsworth poured water upon the stone and said:

"I lay this stone in the name of Friendship," etc; placed flowers within it and said. "I lay this stone in the name of Love," etc.; placed wheat within it saying, "I lay this stone in the name of Truth," etc. He then struck the stone three times with the gavel and pronounced it laid in Benevolence and Charity. The top of the stone was then lowered into its place, the Grand Sire applying the cement, saying, "As this cement binds together the stone and the foundation wall, so may the cement of brotherly affection bind us together during all our lives."

The *Bee* says "There can be no doubt that Virginia will ratify the Fifteenth Constitutional Amendment, and that too by the party claimed by the Democrats on this coast as being in fall sympathy and harmony with them." Virginia, if she does adopt it, will do so under coercion. The *Bee* will remember the outrageous proviso of Senator Morton in the Bill for the admission of Virginia, Texas and Mississippi, requiring them to adopt the Amendment before admission into the Union; a provision so contemptibly odious and mean that even Radical editors are ashamed to speak of it. Virginia may ratify it but will the people endorse it?

SEWARD.—The *Bulletin* tells the following about the opening exercises of the Mechanics' Institute, at San Francisco. The Denman School girls all wanted to see Gov. Seward, when he was informed that many of them could not see him, he changed his position and shook hands with them as they clustered around. The *Bulletin* adds "not one of the little bright-eyed creatures will ever forget the features of Seward nor the occasion on which they met him."

RAILROAD RECEIPTS.—The receipts of the California Pacific Railroad for the month of August amounted to $91,000. The receipts for passenger fare amounted to $6,000 more than in July. The earnings of the Napa road for August amounted to $10,000.

COMPLETED.—The new prison at San Quentin has been completed and will be ready for occupancy in a few days. The Chapel will be dedicated with appropriate ceremonies to-morrow.

MAINE ELECTION.—The Radicals have carried Maine by 8000 majority. There was a falling off of the vote since last November of 42,000.

THE Small Pox has again made its appearance in Watsonville, Santa Cruz county.

Supreme Judges.

Satisfied of their inability to elect their candidates for Judges of the Supreme Court, the leading Radical newspapers are trying by an artful dodge to secure the election of one of them. The Supreme Court, as it is at present constituted, is eulogized; it is perfect and it would be a great pity to make any change. They admit the great legal ability of Judge Crockett, but Sawyer is without a peer—he should be elected at all events—and much time is spent and ink wasted to prove that he is, above all other men, the man for the place. In fact, they concede the election of Judge Crockett, and endeavor by fulsome praise of Sawyer and shameless attacks upon Gen. Wallace, to distract public opinion and secure for two years more a Radical preponderance in the Supreme Court. As regards Sawyer, he is just as acceptable to the people as Pratt and not more so. He has less ability and no more character than the man whom they are willing to sacrifice. Sawyer is a man of weak and feeble intellect, compared with other members of the Court, and infinitismally small when compared with that profound jurist and high toned gentleman, Willian T. Wallace. Sawyer's decisions are without depth or originality. He is not a first-class lawyer nor an able Judge, and the papers that are lauding him know it; their only desire is to retain a Radical majority of Judges and hope to gull the people. Their advice will have no effect with Democrats, and their praise of Sawyer and abuse of Wallace will not convince many of the eminent fitness of one or the unfitness of the other. Very many Republicans, seeing no political issue to contend for in the approaching Judicial election, and desiring that the greatest ability should be at the service of the State, will vote for Wallace; and Democrats, had they any reason to complain of either of their candidates, would prefer Pratt to Sawyer. But the Democratic party are not and have no reason to be dissatisfied with either of their nominees, and will not be led from their support by any sophistry, false reasonings, nor open abuse of one of their best and ablest men. They will come up to the polls in solid column and deposit their ballots for the incorruptible man and wise Judge, J. B. Crockett, and for the great lawyer and irreproachable gentleman, William T. Wallace.

PERHAPS SO.—Miss Anna Dickinson, in her recent raid upon California women said, that with few exceptions, the women that have come to this State had "better have been sunk in the depths of the sea ere they landed upon these shores." From an individual stand-point Anna may be correct. Had all the women been sunk before reaching these shores there would have been a better chance for her and her strong-minded sisters. We would advise Anna not to trouble herself about California women, for we believe that they are pretty well satisfied with themselves and their condition here, and what is perhaps equally important to them, the men are pretty well content to take them as they are. By being "correct, unselfish, self-sacrificing and Christian," we suppose Anna means to travel about the country lecturing about "suffrage" and "women's wrongs" (or rights) and getting paid for it. We are thankful that there are but few of these "unselfish Christian" women in the State.

SUICIDE.—Frank B. Ward, formerly a leading merchant of San Francisco, son of Ward of the old New York firm of Prime, Ward & King, and son-in-law of William B. Astor, jumped overboard from the steamer Sacramento, on the way to Panama and was drowned. He run up a big wine bill and having no money to pay on presentation of bill, he settled it by going overboard. He was in his day, wealthy, liberal and fast, but has of late years been in reduced circumstances.

GRAND LODGE I. O. O. F.—The members of the Grand Lodge of Odd Fellows arrived by special train in Sacramento on Tuesday. They received a hearty greeting on their arrival at the Capital. We notice the names of some old acquaintances: Hon. J. F. Alexander, of Illinois, James Terwilleger, for many years connected with the press of Syacuse, N. Y., and others. The Grand Lodge meet at San Francisco, Monday, the 20th.

TO ABDICATE.—The Telegraph has it that Louis Napoleon is to abdicate in favor of his son. A Regency, at the head of which will be the Empress and Prince Napoleon, will govern during the young Prince Imperial's minority. The Emperor is in poor health, and desires to firmly establish the succession before he departs for that country where the meanest subject is equal to an Emperor or a King.

TRUE.—Frank Soule, editor of the *Call*, and late Collector of Internal Revenue, says:

"Many consider it a very desirable thing to hold a Federal office. Some such would be worth having, were it not that the occupant is at the mercy, all the time, of some ephemeral party man in power, who demands that the office-holder must be his dog, or lose his bone."

THE Marysville *Appeal* boasts that its party dies cheering the Fifteenth Amendment, as a sailor cheers his flag as his ship goes to the bottom. We know some members of that party who did not cheer the Mongolian Amendment on election day.—*Stockton Gazette*.

We know several Republicans who did not cheer it on that day.

RESULT.—The result of the re-count of the vote of San Francisco does not change the result before announced. Selby is elected Mayor, Hanna Clerk, and Freeman Fire Commissioner.

CORRECT IT.—Some of our Democratic cotemporaries continually speak of the opposition party in this State as "Republican." This is a mistake and should be corrected. There is no Republican party, though there are Republicans, and many of them voted against the "Radical" party with which they are confounded at the late election. Radical is the name of the negro-Chinese equality Fifteenth Amendment party, and let them be called by it. It is very offensive to old Republicans to be classed with them.

RESPECT FOR WOMEN.—Anna Dickinson says that "much more real respect is shown women in New England than in California." We don't know what she means by "real respect" but we do know that a woman can travel alone in this State, from San Diego to Yreka, without insult or annoyance, and that in New England she is safe from neither, in a trip from Boston to Providence.

STILL FLITTING. — Grant is still going, and some of the papers intimate "going it." He left the grave of his best friend, Rawlings, to participate next day in a grand German Festival at Pittsburg. Such conduct appears to common people, as exhibiting a lack of feeling and want of heart, but we guess it is all right. Grant "assumes responsibility without fear."

DUEL.—Two young men, Gardiner and Smedburgh, fought a duel with pistols in San Francisco, Tuesday. Smedburgh was wounded in the hand the first fire and then there was a settlement of the difficulty. Smedburgh had called Gardiner a gambler, swindler, etc., and Gardiner had cowhided Smedburgh.

WILLIAM H. SEWARD and party will start for Mexico on the 30th. They will proceed by way of Manzanilla to Colima, thence to the city of Mexico, where they will remain several weeks, then go to New Orleans by way of Vera Cruz.

CROWDING IN.—Twenty-five Chinamen recently arrived in Philadelphia, to be employed as waiters in a hotel. They receive seven dollars a month, not enough to pay house rent for the family of the white men they are crowding out of place.

THE *Appeal* says "Let us elect Crockett and Sawyer and have peace." We want peace without Sawyer and intend to have it if we are compelled to fight for it. Yes, with Crockett and Wallace we feel able to "conquor a peace."

JOHN BELL, of Tennessee, is dead. He was for many years a prominent man in his State, and also had a national reputation, having been U. S. Senator and candidate in 1860, for President on the "American Union" ticket. He cannot be said to have been a great man, but he leaves behind him a character for purity in public life and uprightness in all his actions.

CUBA.—The telegraph states that a large force will be immediately sent by Spain, to put down the rebellion in Cuba. The interference of the American Minister has kindled the wrath of the Dons.

HIS MISSION.—There is a good-looking young man in Cleveland who now says his mission is to marry the "Widder Vanderbilt when the Commodore passes in his checks."

THE Alaska *Times* says there are only six hundred inhabitants in Sitka, all told, yet there are sixty bar rooms and two breweries.

CEMETERY IMPROVEMENT.—The public are notified by posters, distributed about town, that a meeting has been called for October 2d to institute measures for the improvement of the Cemetery. This is a matter of interest to all our people, both in town and country. Our "City of the Dead" has much quiet, natural beauty, and to one tired from the battles of life it seems a pleasant place to rest under the cool shadows of the old oak trees. But the grounds have been neglected, and in visiting the churchyard the heart of a man of sentiment and feeling is filled not entirely with grief for the dead who rest quietly there, but with sorrow for the neglect of the living. Many of the mounds over the graves of the departed are entirely obliterated—their only monument being the deep grief cherished in a silent corner of the heart of the mother, or wife, or sister, who cherishes their memory when dead as they unselfishly loved and clung to them when living. The meeting will be held at the old Union Church at 2 o'clock P. M.

EAGLE MILLS.—These mills, at Knight's Landing, are running night and day and keep up their reputation for turning out the very best flour in the State. As a custom mill, its popularity is wide-spread—farmers from forty and fifty miles bringing their grists, certain from choice wheat to get choice flour. The present proprietors, Eastham & Beatty, understand the practical details of their business and attend to it personally. They have orders in advance for "Extra Bakers'" flour from San Francisco and all parts of the State accessible by steamboats or railroad. First-class hotels use no other when they can obtain the Eagle brand.

YOLO COUNTY AT THE STATE FAIR.—The following premiums were awarded to residents of this county, at the late Fair of the State Agricultural Society: Best Stallion, two years old, to J. A. Douglas, for "Pelham," $30. C. W. Read, best twelve specimens and varieties of pears, $8. Dr. J. S. Curtis, best exhibition of peanuts, $2 and honorable mention, as being the first to introduce the cultivation of peanuts in the State. J. P. Godenow, best Chile wheat, $10. William Jones, best fruit casket, special premium. Dr. J. S. Curtis, one worsted work wreath, one hair work wreath. W. Howk, two hens eggs, honorable mention. Wm. Gibson, best two year old mare "Clydesdale," $15. G. D. Stephens, best Jack, $50. J. M. Martin, best saddle horse, "Pilgrim," $10.

KNIGHT'S LANDING is lively just at present. Merchants are prospering: hotels are full to overflowing; saloons are doing a rushing business; fighting is in order at all times, and thieving not uncommon. Woodland and Davisville have resumed their normal condition of quiet and the Landing is carrying off all the honors. Items are plenty. Well, we had our day, and the boys followed up the railroad. The "U. P.s" have gone from amongst us and we are compelled too to follow up the road for excitement or items for our local column. We hope our neighbors appreciate the good thing which they have got: that they, like us, may appreciate its loss. It was hard to part with our friend Samuels, but we hope he is enjoying himself and making things pleasant for our friends at the Landing.

PELHAM.—We here give the pedigree of this fine young stallion owned by Jas. A. Douglas of this place, and which received the first premium for two-year-olds at the late State Fair: Sired by Norfolk, he by Lexington, he by Boston, he by Timoleon. Dam of Lexington, Alice Carneal by Sampson, out of Rowena. Pelham's dam, Mary L. by Ashland, he by imported Glencoe, grand-dam Lola Montez by Grey Eagle, he by Woodpecker, he by Bertrand and he by Sir Archy; g g dam Cora by Trumpeter, he by Dragon and he by Sir Solomon; g g g dam by Yellow Jacket by Gallatin; g g g g dam by old imported Whip; g g g g g dam by Albert; g g g g g g dam by Old Union; g g g g g g g dam by Tippo-Sahib, he by Lath and he by Godolphin Arabian.

RALROAD AND BRIDGE.—The Cal. P. R. R. bridge across the Sacramento river at Knight's Landing will be completed about the 1st of October. It will be a very substantial structure. The track will be down from the Landing to Marysville shortly after the completion of the bridge, giving our neighbors from that village a short and quick route to Woodland and San Francisco. Over three hundred men are employed by the Company north of the river, grading. A temporary track will be put down at a point where piling will be necessary, but the whole work will be finished before the winter rains.

GONE EAST.—I. S. Chiles and wife, H. N. Cummings, W. N. Brooks and wife, D. Magowan and W. C. Wright, all old residents of this county, have gone East with the Pioneers, of which society they are members. James McClatchey, of the *Bee*, and J. W. Coffroth and wife are also of the party. We wish them a pleasant time and a speedy return.

FARM AND FARMING IMPLEMENTS FOR SALE. J. Spurgeon will sell at auction to-day 160 acres of land, 4½ miles south-west from town; also, horses, wagons, threshing-machine, mower, gang-plow, grain and hay.

CALL AND SEE.—The ladies of Woodland and vicinity are invited by Mrs. Ogburn to call at her millinery establishment, where they will learn something to their advantage. *

See advertisement of Goldman's vegetable and fruit Store, in to-days' DEMOCRAT.

DISTRICT SCHOOL.—Want of room at the District School House, obliged the Trustees to establish a branch at the old Union Church, for the intermediate grade. This will be a great convenience to families residing in that vicinity. A new School House is needed much, and it seems to us that the town is rich enough to build one sufficiently commodious to accommodate all the scholars.

HUSTON, GOLDMAN & Co.—This firm at Knight's Landing are doing, as they deserve to, an immense business. Their sales would astonish some of those doing business in our large cities. They have a large stock and a full assortment of goods and they know how to dispose of them. Prompt, accommodating, and liberal, we are glad to know that they are meeting with great success.

ELLIOTT'S NEW ADVERTISEMENT.—Elliott has for sale several carriages and buggies, of the latest styles and of superior workmanship and finish, made at his manufactory and under his own supervision. Also, lumber wagons, different styles. Call and see them, as they best recommend themselves.

P. S. GLASSCOCK.—This gentleman's drug store, at Knight's Landing, is one of the best appointed and best conducted in the county. A full and new stock of drugs and medicines have just been received. Dr. Parramour's office is at Glasscock's, and also Wells, Fargo & Co.'s, the telegraph office and post-office.

CANDIDATE.—James A. Douglas, Esq., of this place, will be a candidate for Sergeant-at-Arms of the Senate. He is a gentleman, a working Democrat, and a man more worthy of the consideration of a Democratic Senate is not to be found in the State.

CAMP MEETING.—The United Brethren have been holding a Camp Meeting in the timber, two miles North of town, the past week. Much interest has been manifested, we are informed, and the attendance last Sunday was quite large.

DIED.—Dr. Rice, a well-known and highly-esteemed resident of Capay Valley, in this county, and who has been an invalid for some time, expired on the night of the 12th inst. His remains were taken to Vacaville for interment.

GOT BACK.—Our citizens who visited the State Fair have all got back home safe. None of them were garrotted, but all were robbed in various ways and very many of them were "Compromised" by the races.

ACCIDENT.—On Wednesday, 8th inst., Lizzie, little daughter of R. C. Hunter, of Capay, fell from her horse, dislocating her arm at the elbow and slightly fracturing the bone. She is doing well.

GONE EAST.—E. R. Lowe, Esq., and family, left for the East on Monday last, for a visit. They will absent about three months. We wish them a pleasant visit and safe return.

FATAL ACCIDENT.—On Friday, 10th inst., a little son of Mr. Trainor, on Cottonwood, was thrown from a horse and instantly killed.

LAUGENOUR & BROWNELL have stored in their warehouses, at Knight's Landing, 15,000 tons of Yolo wheat.

MARRIED.

USE PAIN KILLER FOR CHOLERA AND BOWEL COMPLAINTS., for Boils, Cuts, Bruises and Scalds, Old Sores, Sprains Swelling of the Joints, Toothache, Pain in the Face, Neuralgia and Rheumatism, Frosted Feet, Felons, Sore Throat, Sudden Colds, Coughs, &c. Use it for any of these, and you will never do without. Its success as a valuable family medicine has induced others to imitate and counterfeit the Pain Killer to some extent. *Beware of Counterfeits.* s4m1

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, until the evil consequences of such a condition are realized in extreme debility, nervousness and prostration of the vital energies of the system; and it may be safely asserted that a majority of the female sex are little better than invalids, from the same cause; but by using Dr. Walker's Vinegar Bitters, this natural aperient and tonic brings back the vigor and bouyancy of health.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."

The effect of Dr. Walker's Vinegar Bitters, even when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose. There is no nausea or disturbance of the stomach, and instead of causing any sense of languor, or debility, it seems rather to invigorate the whole system, and excite the keenest appetite.

AYER'S HAIR VIGOR,

For Restoring Gray Hair to its Natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where follicles are destroyed, or the glands atrophied and destroyed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Hair Dressing,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

THE LATEST DISCOVERY
— IN —
MEDICATION!

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A Vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

Dr. Erasmus Winslow's Liver and Stomach Lozenge is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supercede and banish from general use the nauseous pills and potions of which that dangerous excitant is the main ingredient. More than one thousand experiments were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and although the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness, Constipation, sick or nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenges will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an anti-billious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's Liver and Stomach Lozenge, will ever again take a purgative powder, or draught, or pill.

EXTENTION HOMESTEAD ASSOCIATION.

SHARES.....$250 EACH,

Payable in seventeen Monthly Installment.

Lots Represented by Shares 50 by 160 Feet.

Lands Immediately Adjoining the City Limits.

Title Perfect!

Payments to begin July, 1869, and to close November, 1870.

This Homestead addition to the City of Sacramento offers unrivaled inducements to all who desire to secure homes, as well as to those seeking to make investments in real estate. Shareholders who pay up in full may take possession of their lots under restrictions consistant with the interests of all Shareholders and an equitable distribution of the property. These restrictions are briefly: 1. Payment in full within six months from July 1st, 1869. 2. Not more than six lots in any one block shall be assigned; only two of which shall be corner lots, and only one corner and two inside lots on the same side of a block. This feature will secure the immediate settlement and rapid improvement of the lands, and a consequent enhancement of its value. The line of the Sacramento Valley and Western Pacific Railroads run through the plat, and an agreement and bond has been executed by the former Company to run trains on schedules of time equal to the accommodations afforded by street railroads. Thus by reason of being conveniently accessible, these lands are brought within the range (in value) of those more centrally located, and will find early occupancy. In every feature of this scheme the Homestead principle—which has been so prolific of good to citizens of moderate means, promoting the growth of our State and its cities and distributing the ownership of Realty among the many—has been carefully guarded. It may safely challenge comparison or competition.

Articles of Association, containing maps of plat, and showing its relation to the city, will be furnished upon application. Shares may be secured by forwarding the first installment of Ten Dollars to the Secretary, who will also furnish any desired information.

CALIFORNIA VINEGAR BITTERS!

Manufactured from the native Herbs and Roots of California.

The Great Blood Purifier!

For Inflammatiory and chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the digestive organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptiyns, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.

"The life of all Flesh is the Blood thereof." Purify the Blood and the health of the whole system will follow. It is a Gentle Purgative as well as a Tonic.

These Bitters are not a gilded Pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.

STOP THAT COUGHING.

Some of you can't, and we pity you. You have tried every remedy but the ONE destined, by its intrinsic merit, to supersede all similar preparations. It is not surprising you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

Newell's Pulmonary Syrup

is really the VERY BEST remedy ever compounded for the cure of coughs, colds, sore throat, Asthma, Whooping-cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefitted by the surprising curative powers of

Newell's Pulmonary Syrup,

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

Newell's Pulmonary Syrup

has cured thousands, and it will cure YOU if you try it.

This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all poisonous or deleterious drugs, and perfectly harmless under all circumstances.

ESSENCE OF
JAMAICA GINGER!

This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

The Song of the Printer.

Pick and click
Goes the type in the stick,
As the printer stands at his case;
His eyes glance quick, as his fingers pick
The type at a rapid pace;
And one by one as the letters go,
Words are piled up steady and slow—
Steady and slow—
But still they grow,
And words of fire they soon will glow;
Wonderful words that without a sound
Traverse the earth to the utmost bound;
Words that shall make
The tyrant quake,
And the fetters of the oppressed shall break,
Words that can crumble an army's might,
Or treble its strength in a righteous fight.

Yet the types they look but leaden and dumb,
As he puts them in place with finger and thumb;
But the printer smiles,
And his work beguiles
By chanting a song as the letters he piles,
With pick and click,
Like the world's chronometer, tick! tick! tick!

O, where is the man with such simple tools
Can govern the world like I?
With a printing press, an iron stick,
And a little leaden die,
With paper of white, and ink of black,
I support the Right, and the Wrong attack.

Say, where is he, or who may he be,
That can rival the printer's power?
To no monarch's that live, the wall doth he give,
Their sway lasts only an hour;
While the printer still grows, and God only knows
When his might shall cease to tower!

A Mystery Cleared Up.

"MARK TWAIN" EPPLAINS A SENSATION PRESS TELEGRAM.

In a recent number of the Cleveland *Herald*, Mark Twain says:

Ex-Secretary Stanton had an interview with Secretary Fish yesterday.—*Sensation Telegram of the Associated Press.*

I was present at the interview. The subject of it was warts.

Ex-Secretary Stanton said that when he was a boy he had sixteen on his left hand and two on his right thumb, and one on his elbow. He said he used to hunt for old hollow stumps with rain water standing in them to soak his warts in.

Secretary Fish said he had a million of warts when he was a boy, and sometimes he split a bean and tied it over a wart, and then took the bean and burried it at midnight in the cross-roads in the dark of the moon.

Ex-Secretary Stanton said he tried that, but it never worked.

Secretary Fish said he could not remember that it worked; he remembered trying it a good many times and in the most unquestioning good-faith.

Ex-Secretary Stanton said his usual plan was to run a needle through the wart, and then hold the end of the needle in the candle till it warmed the wart to that degree that it would never take an interest in the world's follies and vanities any more forever.

Secretary Fish said he thought he was the wartest boy that ever—

At this inopportune moment ex-Secretary Stanton's carriage was announced and he arose and took his leave. The next Associated Press dispatch that distress the people through the columns of every newspaper in America read as follows:

The subject of the interview between ex-Secretary Stanton and Secretary Fish has not transpired. There are various rumors flying. It is generally believed that it referred to the *Alabama* question, and was very important.

And yet they were only talking about warts.

Hereafter when I see vague Associated Press dispatches, stating that Jones called on the Secretary of the Interior last night, or Smith had an interview with the Attorney-General, or Brown was closeted with the President until a late hour yesterday evening, I shall not be terrified as I used to be. I shall feel certain that they are only talking about warts or someting like that. They can never fire my interest again with one of those dispatches, unless they state what the interview was about. MARK TWAIN.

NOT A GOOD INVESTMENT.—When you see a young lady so very delicate that she can't make her own bed, or put a couple of plates upon the table, and yet trots all over town daily, with the speed of a ra e horse, to jumble nonsense with the Softpates and Jenkines, just chalk it down she's a piece of goods you can't invest a single penny or a pulsation in. A girl who hasn't the muscle to lift three feathers and a pillow-case, but can tire a locomotive and a whole omnibus line out of breath, is an institution that, like prussic acid and garrulous old maids, is to be kept clear of.

A HANDSOME young bride was observed to be in deep reflection on her wedding day. One of the bridesmaids asked her the subject of her meditations. "I was thinking," she replied, "which of my old beaux I should marry if I should become a widow."

SOME one writes to be informed if "round trips" on the railroads and steamers are any more expensive than square ones. They are undoubtedly made square when the tickets are paid for.

A WELL-KNOWN physican used to say that roast beef, serenity of mind, cold water baths and an amiable wife, would make almost any man healthy, wealthy and wise.

THE *Revolution* wants women on the police force, but an exchange fears this would augment the "won't go home till morning" fellows to an alarming degree.

IF a burnt child dreads the fire, why does a person who has been singed by Cupid's torch so often have a lingering regard for the old flame?

CHAIR FOR GRANT.—A man in San Francisco has manufactured an arm chair for President Grant. Wonder what office he is after?

AID often comes in at the right time, but this is not the case when the point of somebody's boot assists you in going down stairs.

IT is a good sign to see a man wipe the perspiration from his brow—bad to see him wipe his lips when he comes out of a cellar.

A CRANKY BACHELOR says there are not half so many self-made men now-a-days as there are "self-made" women.

WILLIAM GOVERNEUR MORRIS has been appointed by the President of the United States Marshal of California.

SIGNS.—It is good sign to see a man do an act of charity—a bad sign to hear him boast of it.

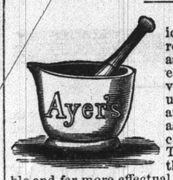
AYER'S CATHARTIC PILLS

For all the Purposes of a Laxative Medicine.



Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterous drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills readily cure:—For Dyspepsia or Indigestion, Listlessness, Langour and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Golic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For Dysentery or Diarrhœa, but one mild dose is generally required. For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear. For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge. For Suppression a large dose should be taken as it produces the desired effect by sympathy. As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. DR. J. C. AYER & CO.,

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

No green oak hubs will be found in my work!

In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and

FARMING IMPLEMENTS!

Plows, Harrows, &c

I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a **Wheelbarrow to a Hornet's Nest.**

The PAINTING and TRIMMING DEPARTMENT

is equal to the best, and particular attention is paid to repairing and trimming old work.

BLACKSMITHING,

In all its branches, is connected with the wood-work, and both are under my supervision.

I have on hand, for sale,

Plow-beams and Handles, Neckyokes, Singletrees, Stretchers, Clevises, Fifth-chains, Lap-Rings, Harrow-Teeth, Etc., Etc.

All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. ☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.
